

UMAR FAIZER

SOFTWARE ENGINEER INTERN

Location – Badulla , Sri Lanka | **Contact** +94 78 571 0077 | **Gmail** faizerumar@gmail.com
LinkedIn – <https://www.linkedin.com/in/faizer-umar> | **GitHub** – <https://github.com/faizerumar>
Portfolio - <https://faizerumar.github.io/1Portfolio-Umar/>

ABOUT ME

Software Engineering undergraduate with hands-on experience building full-stack web, mobile, and AI-powered applications. Proficient in Java, Python, C#, React.js, Spring Boot, and REST APIs with MySQL/SQLite. Seeking a Software Developer Internship to contribute to scalable solutions using Agile practices, clean UI/UX, and OOP principles.

EDUCATION

- **Higher National Diploma in Information Technology (NVQ level-6)**
Sri Lanka Institute of Advanced Technological Education (SLIATE) Badulla
Sep 2024 - July 2026
 - **Passed GCE Ordinary Level & Advanced Level examinations**
Badulla Dharmadutha College | 2009 - 2022
-

PROJECTS

Smart AI Inventory Management System | Java, JSP, Python Flask, MySQL, Bootstrap, REST API

- Built an AI-powered inventory system automating stock tracking and low-stock alerts, cutting manual data entry by 40%.
- Architected RESTful API endpoints integrating a Flask ML pipeline with a Java/JSP web backend.
GitHub - <https://github.com/faizerumar/Smart-Inventory-System-AI-Powered>

Expense and Income Tracker web application | Python Flask, MySQL ,HTML, CSS , JavaScript

- Designed and developed a full-stack Expense Tracker that allows users to manage personal finances, monitor spending trends and receive AI-generated budgeting insights.
GitHub - <https://github.com/faizerumar/expense-tracker>

Python AI Chatbot | Python, Streamlit, Google GenAI SDK, Gemini API

- Developed a cloud-integrated conversational AI app leveraging the Google GenAI SDK and Gemini API, eliminating local storage overhead and local model execution latency.
- Built an interactive user interface with Streamlit and Python, integrating session memory and real-time response streaming to improve user engagement.
GitHub - <https://github.com/faizerumar/python-ai-chatbot>

Cookbook – AI Recipes Generator | Flutter(Dart),TheMealDB, Local storage

- Engineered a cross-platform mobile recipe generator using Flutter (Dart) and integrated TheMealDB REST API with local storage for seamless offline persistence.
GitHub - <https://github.com/faizerumar/cookbook.git>

Spectsman – Telegram ChatBot | Telegram API, Groq API, OpenAI

- Developed an automated Telegram bot using OpenAI API, Groq API, and Python to deliver instant conversational AI capabilities, processing user inputs with low-latency LLM responses.
GitHub – <https://github.com/faizerumar/telegram-bot>

SLIATE LMS & Past Papers Mobile App | Java, Android SDK, XML, SQLite, Android Studio

- Developed a native Android app for 500+ students to access LMS content and past papers offline
Implemented SQLite database for local storage and optimized app performance

Student crud system + Task manager crud app system | React.js, Spring Boot, MySQL, Bootstrap

- Built full-stack CRUD application for student records and task management with understanding Oop concepts & Agile development methodologies.
- Implemented Spring Boot REST APIs and React.js frontend with responsive UI

CPU scheduling simulator – FCFS / SJF | React.js, TypeScript, Tailwind CSS

- Built interactive web application to visualize FCFS and SJF CPU scheduling algorithms & Created animated Gantt charts to improve understanding of OS concepts.

SPECTSMAN e-commerce website | WordPress, WooCommerce, PHP, MySQL, Elementor

- Developed and managed e-commerce website with 50+ products using WordPress and WooCommerce Integrated payment gateway and optimized product pages for SEO.

SKILLS

- **Languages:** Java, Python, C#, PHP, JavaScript, TypeScript, Dart, SQL, HTML5, CSS3
- **Frameworks & Libraries:** Spring Boot, React.js, Node.js, Express.js, Flask, Bootstrap, Tailwind CSS, Flutter, ASP.NET Core, Next.js
- **Databases:** MySQL, SQLite, PostgreSQL, Supabase, Firebase
- **Tools & Developer Utilities :** Git, GitHub, Postman, Docker, Android Studio, VS Code, AWS, Figma, WordPress, XAMPP, Jasper

CERTIFICATIONS

- **Web design for beginners** - University of Moratuwa | credentials – Cco4n3oTLv
- **Python for beginners** - University of Moratuwa | credentials – gGXCiG0kAf
- **Web development** - Zonal ICT Center
- **Graphic Design and Animation** - Zonal ICT Center

COURSES

- Full stack development / Python programming 2 / Introduction to SQA – University of Moratuwa
- AI/ML Engineer – stage 1 – SLIIT
- AI Literacy – ai4all / LEARN

EXPERIENCE

Practical experience (Academic & Self employed Projects) | SLIATE | 2024-Present

- Built & Maintained 15+ full-stack projects (Java, C#, Python, React, Flutter).
- Developed REST APIs, managed MySQL/SQLite databases.
- Deployed apps using Docker, GitHub, AWS

Volunteer Experience – Survey Enumerator | KFHI Sri Lanka

2026 – February to march | Badulla, Sri Lanka

- Provided my service as a Survey Enumerator in CAPR program 2026 at KFHI company in Sri Lanka.
- Managed high-volume field data collection across 100+ entries, using digital data entry systems to maintain 99% accuracy in database sync.
- Gained skills – Reliable Data Entry , collaboration, leadership, Time Management , consistency
